1) Find the frequency count for the following.

(i) For ($i=1; i \leq n; i++$);
 printf("Hello");

(ii) $i=1$;
 $i=i+20$;
 printf("%d", i);

(iii) $i=1$;
 while ($i \leq n$)
 {
 printf("%d", i); ~~++i~~;
 $i++$;
 }

for all the shell programs done in os lab
and out time complexity for all the

programs.
